“ *Pops always had a way with words whether he was joking or not the way he said things would always be funny to me. I've spent a lot of time with him whether it was in person or on the phone and one thing was for certain he was up on anybody trying to pull a number on him, he wasn't having that happening to him or the ones he loved. He loved watching Jeopardy and waiting for those lottery number to be announced. To know him is to love him I am gonna miss you Pops very much!*

“ *Sad that I only met and spoke with him a few times. I would ALWAYS hear my dad talking to him on the phone for hours. Especially if a football game was on. I just wish I had gotten to know him better. R.I.P Grandpa can't wait to meet again.*
