“ I have just found out that my best friend from high school, Larry, had passed away. I have many memories including my sister introducing him to Fran. I wish I could have spoken to him one more time to let him know that he will always have a special place in my heart. Go easy Larry. See you down the road. Love you.

“ Still keeping you in my mind. Praying for peace and comfort for Felicia and Fran. Larry will always be remembered for how sweet he was to my daughter growing up. She was so fond of him and Fran she refers to them as her other Mom and Dad. He gifted his daughter with his wonderful sense of humor and as a family they helped my daughter with many humorous stories and always open hearts. Larry will forever hold a special place in our hearts, as will Fran and Felicia. We love you. We know your light is shining bright in heaven and we'll see you again one day.

“ Larry the great dad of our special Falicia, really liked his sense of humor. We joined Falicia Mom Fran dad Larry for Falicia,s 40th birthday having pizza and going putt putt golf. I think we laughed more than play golf. What fun we all had together. What a special family .Always together. Loved each other so much. Larry Fran Falicia brought all the items to our home to make homemade ice cream. We made messes but oh how good ice cream was. Larry always had stories to tell and great sense of humor. Yes one of Larry's favorite was talking about his cars. Once when Larry wasn't feeling well he got a visit from Betty Boop (me) to help cheer him up. Surprised Him!!He never forgot that!! Have fun in Heaven and we know you will. Ruthie says come on in Larry It is happy here.

“ I have too many good memories to count. From keeping you and Mom up all night laughing with Falicia growing up, to learning about miscellaneous “life stuff”, to sharing ice cream with Tiggy. You will always be a part of my favorite memories. Love you, “Dad”.
